NTPC, with this objective of getting gas at the most competitive price, went for International Competitive Bidding (ICB) for sourcing of gas for its expansion projects at Kawas (1300 MW) and Gandhar (1300 MW) and placed Letter of Intent (LOI) on RIL, evaluated to be the lowest Techno-Commercially acceptable bidder, for supply of gas at US $ 2.34 / Million Metric British Thermal Unit (MMBTU) for 17 years. Subsequently, RIL sought major changes in Gas Sale and Purchase Agreement (GSPA) in the form of Limitation of Liability and RIL did not sign GSPA. Therefore, NTPC filed a suit against M/s RIL in Bombay High Court on 20.12.2005 for specific performance of the contract. The matter is at present sub-judice. The expansion project is yet to come up.

The variable cost of power (at delivered price of gas of US $ 3.30 / MMBTU based on commodity price of US $ 2.34 / MMBTU) works out to be Rs.1.07/ kilo watt hour (Kwh). The variable cost of power (at delivered price of US$ 6.67/MMBTU considering price of gas as US $ 4.20/MMBTU (land fall price) as fixed by Govt. of India for KG D-6 gas) works out to be Rs.2.17/Kwh. The difference in variable cost of power works out to be Rs.1.10/kwh (Rs.2.17-Rs.l.07/kwh).
